

GLOBAL RISK MANAGEMENT PROGRAM

INTERNATIONAL
SOS

When your mobile workers are traveling abroad, you can be sure they're safe with the Global Risk Management Program from International SOS.

Keep your mobile workforce informed of the program with a customized portal that includes information on travel tips, and important contact information, increasing employee satisfaction and retention of talent.

Travel risk awareness course to prepare both seasoned and novice mobile workers for the various risks and threats they will face when abroad, including guiding principals of security and safety.

Natural disasters. Illness. Terrorism. No matter what the emergency, we will work with you to determine the risk to your workforce, and if necessary, quickly evacuate your mobile workers and their families to the nearest international safe haven.

Unlimited, free 24/7 real-time access to doctors and security specialists online, on-call, and on the ground for medical and security referrals, and advice before and during a trip. Engage a security matter expert in a virtual 1 hour consultation.

Tracking travelers, including timely and multi-modal management communication, enables quick advice and assistance when high-risk situations develop. In the event of an emergency, SMS, email, push, voice communication allows you to quickly determine if mobile workers are OK. Mobile workers can also provide their exact location by checking-in with the push of a button on their mobile device.

Ease of access to information, advice, and assistance via mobile devices. Information is updated in real-time and available wherever and whenever you and your mobile workers need it.

WORLDWIDE REACH.
HUMAN TOUCH.
