Control Risks

ONLINE SOLUTIONS

INTRODUCTION TO KIDNAP (ELEARNING)

The Introduction to Kidnap eLearning course is designed to prepare members of your organisation who live, work or travel to higher risk locations to the kidnap risks they may face. Delivered as an eLearning package, this course assists staff that are unable to attend more comprehensive practical training.

Bringing together the unparalleled expertise of Control Risks' training, response and crisis management departments, the Introduction to Kidnap course builds awareness of kidnap risks whilst on assignment and in the event of a kindap situation, the tools to effectively cope and survive captivity. The primary audience for this course is employees travelling, working or living in higher risk destinations. It is also of benefit to staff managers who have responsibility for these individuals.

Online / Easy Access	Convenient and Cost Effective	Scalable	Bite Sized Modules	Interactive learning

UNDERSTAND KIDNAP RISKS AND HOW TO COPE. This course covers advanced kidnap risk topics. By the end of this course, learners will understand:
- Fundamentals of kidnap: facts, types, phases, advice and support
- Survival techniques in the event of a kidnap

LEARN AT YOUR OWN PACE. The course is structured into five bite-sized modules each lasting between six and fourteen minutes. It is interactive and engaging, combining real scenarios and experiences.

DEMONSTRATE DUTY OF CARE. Through completion reports and certificates issued, organisations will be confident that their employees have been duly equipped prior to travel.

INTEGRATED TRAINING SOLUTIONS

Control Risks, in collaboration with International SOS, is able to deliver a broad range of training options to support organizations with staff travelling globally – this includes topics covering a range of security and medical topics through a variety of ways including virtual learning, classroom training, and practical hands-on workshops over several days.
