

A hand wearing a blue nitrile glove holds a medical syringe with a needle. The syringe has a white plunger and a label with the text 'P01', 'b4.3.2', and 'BIO' on a red background. The background is a blurred laboratory setting. The International SOS logo, consisting of a blue swoosh and the text 'INTERNATIONAL SOS', is overlaid on the right side of the image.

MAKING SENSE OF ALL THE NOISE

EDUCATE EMPLOYEES ON THE BENEFITS MANAGER TOOLS

Our latest education materials are available on our pandemic site and in Site Monitor. Helping you to educate employees about the importance of vaccines and their benefits.

Any changes to **materials and guidelines** are automatically updated for you. COVID Site Monitor users are alerted to changes.

COVID-19 VACCINE SUPPORT WORKFORCE RESILIENCE

ON-CALL ADVICE FOR MANAGERS & EMPLOYEES 24/7 ASSISTANCE

Your Managers:

- Discuss any **emerging issues** for your company and how we may be able to help.

Your Employees:

- Managers supporting domestic employees can **escalate any vaccine-related employee questions** you are unable to handle.

Your Assignees and Business Travellers:

- Discuss **possible vaccine and testing requirements for upcoming travel**.
- Our Assistance Centres can provide **vaccine referral & arrangement**, where available. Our network is continuously being updated.

EXPERT SUPPORT WITH COMPLEX PROBLEMS CONSULTANCY ENGAGEMENTS

Use your **Workforce Resilience consulting hours** to deal with the more complex problems that you are facing. Our global health experts are on hand to add capacity and expertise to your vaccination planning.

Whether your need is for **strategic advice**, **vaccination monitoring** and national **vaccine programme information**, or **vaccine delivery strategies**, our advisors can add the needed capability.

We can also provide a dedicated **Global Health Advisor**, should you have long-term needs for support.

WORLDWIDE REACH.
HUMAN TOUCH.
