

MANAGER & EMPLOYEE ASSISTANCE SOUTH AFRICA

The security team of a multinational financial services firm were concerned about a growth in domestic crime attacks on their people during the pandemic.

We worked with our security network in South Africa to quickly establish a armed guard service for their employees.

The service also has long-term positive impacts: the same guards are also assessing and reinforcing security measures at their employees' homes.

MANAGER ASSISTANCE INTERNATIONAL

International SOS provided access to accurate and timely COVID-19 health and security information to a professional services company who were overwhelmed by requests for help from their employees.

The HR team were delighted at the speed they were able to put the new support service in place. Their employees are empowered to make preventative decisions that are borne from a trusted source.

MANAGER ASSISTANCE INDIA

International SOS helped the HR team of a tech start-up to decipher confusing and ever-changing domestic travel restrictions. We were on hand to put in place a Workforce Resilience programme.

The HR team were relieved to have the support and have significantly reduced the amount of time spent on answering queries from their workforce.
