

COVID-19 VACCINATION SERVICES

As an **approved COVID-19 vaccine provider by the Ministry of Health (MOH)**, International SOS – Al Rushaid can deliver an end-to-end solution that includes sourcing vaccines and consumables, cold chain management, medical staffing, vaccine administration and reporting.

BOOSTER SHOT: Benefits & Eligibility

As outlined by the MOH, the COVID-19 booster shot enhances immunity against the virus and its mutations. The COVID-19 vaccine or booster shot can also be received at the same time as the Influenza vaccine and other routine vaccinations.

COVID-19 vaccine booster shots are available for people aged **18 years and over**. The period between the second dose and the booster shot should be:

- **3 months after the second dose** - People aged 18 years and over
- **1 month after the second dose** - Hemodialysis and organ transplant patients

HOW DOES IT WORK?

Our solution is customised to meet the unique needs of each client. We manage and deliver the programme from start to finish by:

- Sourcing the number of vaccines and vaccine-related consumables based on your population on site.
- Fully managing the cold chain and logistics to ensure temperature-sensitive products are kept within optimal temperature ranges.
- Mobilising a medical and administration team on your project site to administer the COVID-19 vaccine and ensure data is captured correctly and reported to the Ministry of Health.

To learn more about how International SOS - Al Rushaid can help, please contact **Auhoud Alsudiri** at +966 50 768 4364 or auhood.alsudiri@internationalsos.com

International SOS has delivered large-scale vaccine programs in challenging environments around the world. Our programs are clinically led by medical experts who are highly experienced in public health, vaccine safety and quality assurance. In Saudi Arabia, International SOS – Al Rushaid has delivered Vaccination Services to many clients across the Kingdom and especially in remote locations.
